Working Prototype Known Problem Report, HitchHike, Uplyft, 12/10/2019

List of functions not working:
- Frontend:
  - Autocomplete on android
  - Sign in button on the sign up page is not appearing too well and the confirm password textbox is half covered
  - Input validation for signup is not completely done
  - Snack bar shows up below the flat list on iOS on Nearby Rides
  - After posting a ride, it does not show up on your posted rides until you login again
  - Does not track if ride is feasible (you can travel over water)
- Database:
  - If a user is already in the backup-file, don't write it to the file again.
